### **Reasons For Allowance**

1. The following is an Examiner's Statement of Reasons for Allowance:

There was no prior art found by the examiner that suggested modification or combination with the cited prior art so as to satisfy the combination of the present independent claims 1, 14 and 22; especially, the prior art does not disclose a detail and structural interrelationship between the illumination source for providing illumination in the infrared portion of the electromagnetic radiation spectrum, the illumination source for providing illumination in the visible portion of the electromagnetic radiation spectrum, the detector and the lens focusing system as recited by claims 1, 14 and 22.

The prior art fails to teach a combination of all the claimed features as present in independent claim 6, which include at least one lens capable of focusing at least two different sets of wavelengths of light from a scene onto a detector by altering the distance from said at least one lens to said detector as recited in claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
